

# Sermoon V1

◆ Magic Box Creates Magic Life ◆

Wonderful Exploration of 3D Printing

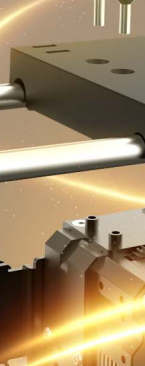

Out-of-Box Printing | Smart Control | Silent Printing

## Magic Is Stronger and More Professional

Sermoon V1 (Standard Version)

Sermoon V1 Pro (Pro Version)

## Wizarding World Get Started in One Step

### Out-of-Box Printing

Free leveling, free assembly, print out-of-box

### Quick Replace Spells

Quick disassembly and assembly nozzle design, convenient maintenance of nozzle, improve your 3D printing success rate

### Flexible Fetching Spells

Flexible metal magnetic suction platform, stable printing and easy to take out the mold

### Smart Control On The Palm

Remotely control the printer under the Creality Cloud app, monitor the printing situation through the HD camera, everything is under control

- Wi-Fi Connection**  
Fast and convenient
- Remote Printing**  
APP remote control
- Wide-angle Camera**  
Real-time remote monitoring
- Automatic LED Light**  
Easily checking at night

## One Touch—Automatically Moves In and Out

Click on it, feed; order it again, return it, There is nothing lower than this level of difficulty. Friendly to beginners

## The Power of Guard Every Move Is Safe

### Fantastic Magic Cube

From the outside, it is a fully enclosed and safe Rubik's Cube case, while inside is a fantastic magical world of creativity at your disposal

175\*175\*165mm Max. Build Dimensions      400\*380\*430mm Machine Dimensions

### Safe Induction Spells

The safety sensor is triggered as soon as the door is opened, pausing the printing process and quickly cooling down the device, safe for kids or pets

## Strange Magic Condenses Energy

### The Power of Magic Sprite

The exquisite and miniaturized direct drive with powerful energy and unlimited power

- Sprite Physique**
- Dual-Gear Feeding**
- High Torque**
- Easy to Use**

### Enjoy the Magic of Silence

Supersilent operations, non-disturbing printing experience, enjoy the fantastic magic world

Soft Whisper 30dB      Normal Conversation 60dB      Hairdryer 90dB

\*Indoor printing noise level is below 45dB

## Top Applications

## Model Display

## Ecological Product Recommendation

\*The above are not included in the purchased package. For more details, please contact our customer service

## Specifications

Print Technology: **FDM**      Nozzle Diameter: **Standard 0.4mm**

Max. Build Dimensions: **175\*175\*165mm**      Nozzle Quantity: **1 piece**

Machine Dimensions: **400\*380\*430mm**      Supported Filament: **PLA/ABS/PETG**

Package Dimensions: **485\*465\*526mm**      Filaments Diameter: **1.75mm**

Machine Weight: **11.5kg**      User Interface: **4.3" Color Touch Screen**

Package Gross Weight: **15kg**      Rated Power: **150W**

Extruder: **Sprite Direct Drive**      Resume Print: **Yes**

Max. Nozzle Temperature: **≤250°C**      Filament Detection: **Yes**

Max. Heated Bed Temperature: **≤80°**      Print Interface: **Wi-Fi / SD Card**

Print Precision: **±0.1mm**      Intelligent Door: **Yes (V1 Pro)**

Layer Thickness: **0.1–0.4mm**      Built-In Live Camera: **Yes (V1 Pro)**

Power Supply: **100–120Vac 200–240Vac 50/60Hz**
